

## **NI announces authorized distributor for embedded control.**

NI is pleased to announce Cyth Systems, Inc., as the primary NI Authorized Distributor for embedded control projects and systems in the United States region. Cyth Systems is a gold level, 19-year member of the NI Partner Network.

For more than 40 years, NI's industry-leading technologies have enabled customers to innovate and solve engineering challenges. Through Cyth Systems, NI will continue to deliver high-performance embedded control systems. This strategic milestone supports our commitment to current and future customer success and Cyth Systems meets our prioritized standards as an NI Authorized Distributor in the United States.

Our collaboration is a complimentary and holistic approach and we will work closely with Cyth Systems to ensure a seamless transition. Cyth Systems will be responsible for NI's current and future embedded control business including sales and marketing activities.

We are confident this approach will enhance your customer experience and help you achieve success with your embedded control projects. Thank you for your business.

Best regards,

**Court Fable**  
**Partner Manager – Americas**  
**NI**
